

STATE ASSESSORS BOARD
TESTING SITES
ANNOUNCEMENT

As a service to assessing officers and to save travel costs for them and for units of government, the State Assessors Board has worked in cooperation with the Upper Peninsula Assessors Association and the Michigan Assessors Association to provide testing sites periodically throughout the state. These testing sites are in addition to the permanent testing site in Lansing that has been in existence for several years. Detailed information regarding these testing sites will soon be posted to the State Assessors Board Web page under the heading "Testing Sites". The State Assessors Board appreciates and values the efforts of state and regional associations of assessing professionals in providing educational opportunities to assessing officers.

Date of announcement: May 2, 2008
